Subject: "calculated" value for PFOA

Sorry to be such a nuisance Kathy. Someone from our Office of Research & Development who has been reviewing the Washington Works residential sampling data asked what the designation of "calculated" means for some of the PFOA results. From the attached list provided, the analyses were performed way back in 2002 and 2004. No hurry – any light you can shed on this is much appreciated. Thanks again.

Roger
